

# Community Input Session

## Jefferson County Administration cordially requests your participation!

Jefferson County is currently updating our strategic plan. We are looking to gain a better understanding of the views of the County from our community, and are inviting you to participate in one of the two “World Café” community input sessions. Your feedback will help us set to goals and priorities for our future.

### What is a World Café?

At the World Café, participants are organized into small “break-out groups” to discuss the issues and topics that are important to you. This process allows sharing of ideas in less time than at a traditional focus group. The sessions will help us identify the top issues and concerns that need to be addressed in creating the plan.
